Experience (design and otherwise)

Freelance Designer (2017 — Present)
Creating web designs for people and businesses to develop their online presence.

Current Client: Real Engine
Currently designing a visual scripting language and interface for a game builder for the real world.

UQ Weekend Of Startups 2016 Winner
Designed and pitched QuikMeals, a recipe finder for people who don't have time. Designed, researched and tested within 2 days. Although it wasn't the prettiest design, it communicated the idea quickly and effectively.

Volunteer Myriad Live, Lead Volunteer YOW! Conference
Providing seamless experiences in trasferring speakers and audiences to the right locations as well as thinking on the spot to solve any unexpected obstacles.
